

SK INDEX - VOLUME 37

In the following index, which covers Volume 37 - August, 2012 through July, 2013 of *Skinned Knuckles*, each subject is followed by a series of two numbers separated by a hyphen. The first number, before the hyphen, represents the Issue Number (August is number 1, September number 2, through July number 12). The second number, after the hyphen, is the page number. In the case of a single entry, only one number will appear; in the case of multiple entries, a series of numbers, separated by a comma, will appear. Example: Dash Gauges & Switches. References appear in issue 10 (May) on page 11, in issue 11 (June) on page 12. and in issue 12 (July) on page 11. Additional topics can be found in the Back-Issue Index (in the December issue), or on our website, www.skinnedknuckles.net. The website will include topics in all available issues through volume 37 as well as providing information on how to purchase back issues. Reprints of specific articles are not available, but complete back issues may be purchased, if in stock. Go to www.skinnedknuckles.net and click 'Back Issues'.

1901 - Automotive	11-18, 12-5	Exploding Engines	7-24
