

SKINNED KNUCKLES

INDEX

VOL. 1-4

In the following four-year index, covering Volume 1 through 4 of *Skinned Knuckles*, each subject listing is followed by three numbers (for a single listing) or a series of three numbers (for multiple listings). In every case the first number is a Roman numeral, which designates volume number; the second number indicates issue number in that volume; the third is page number. Example: SANDBLASTING CABINET, III-7-31. The subject or topic is Sandblasting Cabinet, and information on this subject can be found in volume number 3, issue 7, on page 31. Subjects listed include major topics covered in various columns such as Restoration Forum, Shop Ideas, etc., in addition to feature articles.

"Viewpoint" Cont. from page 13

Anyway, I sure hope I do get to see more Stars and Durants out at the various meets.

That goes for Velies, Chandlers, Elcars, Davises, and Westcotts, too. In fact, you can add your own favorite. I'd like to see any or all of them out anytime. After all, Ford, Chevy, Buick, and Plymouth ain't the only cars ever made — tho anyone might think so from checking most antique car shows. So come on, guys, and Bring 'em out.
